Rua Comendador Eduardo Secco,
179, Jardim Carvalho, 91440-160.
Porto Alegre – RS, Brazil.

CORE COMPETENCIES

- ✓ Communication
- ✓ Enthusiasm
- ✓ Problem solving
- ✓ Reliability
- ✓ Self-management
- ✓ Teamwork

PROFESSIONAL SKILLS

- ActiveMQ
- Android
- C / C++ / C#
- Camel
- Cloud Computing
- iOS
- Java / Groovy / Spring
- JSON API / JSON Schema
- MongoDB
- MySQL
- NodeJS
- PHP (Laravel Framework)
- PostgreSQL
- RESTful Web services
- ZeroMQ

TOOLS

- Bitbucket
- Github
- IntelliJ
- MS Visual Studio
- SourceTree
- XCode

Professional with substantial **experience** both as a software **developer** and technical **leader**. Background in developing software in desktop, web, and mobile platforms. **Proactive** to solve problems and propose **solutions** using **innovative** technologies in the market. Ease of **learning** in training offered to innovative **technologies**. Ability to work in a **team**, with effective **communication**.

PROFESSIONAL EXPERIENCE

STEFANINI IT SOLUTIONS – AGCO CORP.

Jan 2017 to Present

Stefanini is a global provider of technology-based business solutions: IT Outsourcing Services, Application Services and Strategic Staffing. AGCO Corporation is an American agricultural equipment manufacturer.

As a **Senior Java Analyst Developer**, I must:

- Work as a 3rd party software developer for Stefanini clients, specially the **AGCO CORP**.
- Analyse requirements and provide **planning** and documentation for software features.
- Implement **reliable** and **scalable** integration platforms between internal and external services, including transmitting **high-risky** data between platforms.
- Develop with the latest technology and using Java, Groovy and frameworks such as Apache Camel and Spring.
- Develop secure **RESTful** web services and ensuring data integrity with **JSON Schema** and **JSON API** specifications.
- Focus on **delivering** easily **maintainable** and **future-proof** code.
- Assist team with gained experience from past projects.

TownSq

May 2016 to Jan 2017

TownSq is an online condominium platform which improves communication and help with daily activities. Therefore, TownSq reduces costs, saves time and energy, making life better at thousands of homes.

As a **Software Engineer**, I had to:

- Work around the **entire** development stack delivering **high-impact** and performatic applications and services without sacrificing data security or features.
- Implement **reliable** and **scalable** integration platforms between our internal and external providers.
- Analyse requirements and provide **planning** and documentation for software features.
- Focus on **delivering** easily **maintainable** and future-proof code.
- Assist team with gained experience from past projects.

JKMRC – Julius Kruttschnitt Mineral Research Centre

Nov 2014 to Feb 2015

Summer internship as part of the Science without Borders scholarship.

As a **Summer Research Intern**, I had to:

- Development of a tool to provide easy management and analysis of sound wave data.
- **Integrate** the tool with the previously developed sound analysis algorithm using MATLAB.
- Write **documentation** about the developed tool using proper English and common language for non-IT people.

PUCRS / Hewlett-Packard**Dec 2011 to Dec 2013**

Research and development laboratory in partnership between PUCRS and HP.

As a **Software Developer** and **Jr Technical Leader** I had to:

- **Manage** technical **dependencies**, negotiate and review **requirements**.
- Organize the team around the proposed **architecture**.
- Provide technical support to the development team.
- Ensure the **compliance** with the proposed **goals** to the team.
- Development in C, C++, Ruby on Rails, **Java**, Python, PHP, among others.
- Development of **Android** Applications.
- Expertise in **Cloud Computing** through OpenStack platform.
- Expertise in Linux (Ubuntu), Sockets, ZeroMQ, PVM, MongoDB and Android.
- Expertise with Kanban, **Scrum**, Daily, Planning Poker, SVN and Kunagi.
- Experience in different roles of **agile** software development methods.
- Experience in writing official project documentation in **English**.
- Experience in the **interaction** and contribution to **Open Source** communities.

DoubleOne**Jan 2011 to Dec 2011**

Web Development, Advertising and Marketing company.

As a **Software Developer**, I had to:

- Development in PHP, HTML5, XHTML, CSS3 e MySQL, JS and JQuery Library.
- Shared hosting server configuration.

EDUCATIONAL HISTORY

SENACRS**Jul 2015 to present**

SENACRS is part of an organization of trade and services of the state of Rio Grande do Sul, represented by almost 600 thousand companies in the tertiary sector, which generate in the State one million and 400,000 formal jobs.
